角すいや円すいの体積

次の図形の体積を求めましょう。

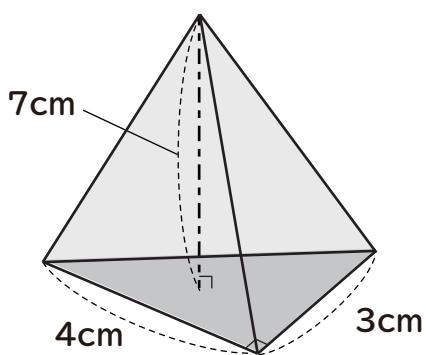

①

$$\text{底面積} : 4 \times 3 \div 2 = 6$$

$$\text{体積} : \frac{1}{3} \times 6 \times 5 = 10$$

$$10 \text{ cm}^3$$

②

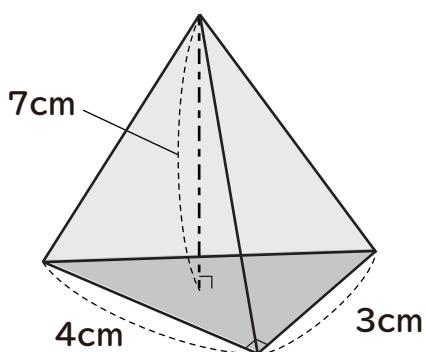

$$\text{底面積} : 4 \times 4 = 16$$

$$\text{体積} : \frac{1}{3} \times 16 \times 6 = 32$$

$$32 \text{ cm}^3$$

③

$$\text{底面積} : 3 \times 4 \div 2 = 6$$

$$\text{体積} : \frac{1}{3} \times 6 \times 7 = 14$$

$$14 \text{ cm}^3$$
